HP LaserJet 1300 series printers

1300 • 1300n

Busy professionals need a dependable printer to produce business documents that both communicate ideas and present an impressive image to their customers. The HP LaserJet 1300 Series Printers put that power right at your fingertips. And, with print speeds of up to 20 ppm, you're ensured efficiency from start to finish.

professional

- fast start of print jobs—the instant-on fuser produces the first page of each print job in just 8 seconds
- fast printing speed and reliability that busy professionals can count on—with a 133 MHz processor and 16 MB of RAM (expandable to 80 RAM), the HP LaserJet 1300 printers accommodate the demands of your personal or shared printing needs
- enhance your business communication—high quality black and white text printing at 1200 by 1200 dpi resolution delivers the consistently clear, sharp print quality that will impress your clients and customers

flexible

- produce high quality printed documents quickly and easily—print speed of up to 20 ppm for letter-size pages ensures efficiency from start to finish
- easy setup means you begin printing in minutes—connect printer using a USB or parallel (LIO) port, or for network printing, use the HP Jetdirect 200m LIO internal print server (optional on 1300 model); install an optional wireless external print server to further extend printing options

broadly compatible

- expandable to meet your specific needs—use the open DIMM slot to add more memory or fonts to make your business communication best represent your company and your message
- compatible with many office environments—print with PCL 5e, PCL 6, or PostScript® Level 2 emulation to meet standards that are recognized in businesses around the world
- enjoy longer periods of continuous printing—printers come with a 260-sheet standard paper input capacity and you can add an optional paper tray to reach a total input capacity of 510 sheets so you load trays less often
- easy supplies maintenance further minimizes user intervention—printers come with a single-piece, easy-to-replace 2,500-page HP Smart print cartridge¹ or you can install a high capacity 4,000-page HP Smart print cartridge¹ for maximum uptime

HP printing and imaging systems help you create powerful, professional communications easily. Printers, supplies, accessories, and services are designed together to work together to meet your business needs.

HP LaserJet 1300 series printers

HP LaserJet 1300n shown

embedded web server to manage the printer and supplies

125-sheet output capacity

graphical control panel for ease-of-use, supplies maintenance, and convenience

additional DIMM slot allows you to add more memory or fonts

260-sheet standard input capacity; optional 250-sheet input tray for a 510-sheet total input capacity

connect using USB or parallel (LIO) ports

share fast, reliable printing with the HP Jetdirect 200m LIO internal print server (optional on 1300 model)

standard input tray supports multiple media sizes including letter, legal, as well as custom sizes

- wireless external print server

step up to HP LaserJet quality, performance, and reliability

LaserJet printing right from your desktop

Make the jump to the fast, reliable printing that comes from HP LaserJet. Now you can bring big performance features to your desktop or workgroup for a small price.

With the HP LaserJet 1300 Series Printers, you have the ability to:

- improve the effectiveness of your business communication by printing clear, crisp black text via true 1200 by 1200 dpi resolution
- get your documents when you need them with the up to 20 page-per-minute print speed and with the instant-on fuser that eliminates printer warmup, the first page is out in only 8 seconds
- improve performance using a 133 MHz processor that allows large and complex documents to download and print fast, with quick return-to-application
- easily connect to your desktop computer for personal LaserJet printing or use a Jetdirect network print server (standard on 1300n) to share the printer with coworkers on your office network
- work in a wide range of office environments with separate parallel and USB ports to accommodate both PC and Macintosh platforms simultaneously while printing in mixed-language environments using PCL 5e, PCL 6, or PostScript Level 2 emulation
- take advantage of emerging technologies by installing an optional wireless external print server to further extend printing options
- customize with options such as an additional paper tray and memory DIMMs to provide the unique solution that's right for your immediate needs and can expand as your business prospers

the HP networking advantage

HP offers flexible, reliable, and easy-to-install network connectivity solutions for businesses to connect their HP products. Whether it's simple but effective small business solutions, award winning network management tools for medium to large businesses, or secure wireless connectivity for the modern mobile workplace, look to HP for all your connectivity needs.

the HP supplies advantage

Keep on top of your supplies management with the HP LaserJet 1300 Series Printers and HP Smart printing supplies¹. By using the integrated toolbox feature or network print server to gain access to the embedded Web server, you can manage your printer supplies quickly, easily, and with a minimum of intervention. That's because HP supplies with HP Smart printing technology¹ work with the printer to provide supplies status information, configurable alerts, toner-low notification, and Web-based supplies ordering of authentic, reliable HP products.

HP designs its print cartridges to produce extraordinarily high quality results that provide the clarity needed for halftone images, smooth grayscales, and fine details. By using HP cartridges with HP Smart printing technology¹, you're ensured consistent print quality from beginning to end of the cartridge—no shaking needed. HP LaserJet cartridges and printers are designed to work together—allowing you to spend less time maintaining your printer and guaranteeing successful printing every time.

award winning support from HP

HP provides you with a variety of support options in order to assist you in the setup and maintenance of the HP LaserJet 1300 Series. Use HP's expert knowledge to help you make the most of your printer and ensure your equipment is running at peak efficiency. Start with a one-year limited warranty, backed by free telephone support from the award winning HP Customer Care. To further guarantee trouble-free operation, and maximize the potential of your HP LaserJet printer, or to customize the printer for your unique business profile, consider upgrading service and support options such as installation, network installation, advanced maintenance, and post-warranty support.

maximize your IT investment

HP offers a comprehensive set of services and acquisition options that provide predictable cost structures and business efficiency gains—financing, user training, deployment strategies, regularly scheduled supplies and printer maintenance, and complete hardcopy environment management are available through HP Consulting, HP Outsourcing, HP Support, HP Education, and HP Finance.
