DCPJ125 Compact Colour Inkjet Multi-Function Centre with Media Card Centre

The stylish and compact DCPJ125 combines Print, Scan and Copy capabilities in just one easy-to-use machine, allowing you to Do More.

The DCPJ125 offers a simple to use menu structure and 1.9" LCD display making it simpler for you to get the most out of your machine.

Impressive print speeds of 33 mono and 27 colour pages per minute enable you to save time when waiting for your print outs, combined with the excellent 6,000dpi and 1.5 picolitre print quality, this means that you can print professional quality documents in-house.

Print directly from a media card without the need to turn on your PC. Simply insert your card into the machine and select and print the images you want via the 1.9" colour LCD display.

Scan bound and irregular shaped documents on the hinged flatbed scanner. You can scan items to media card or email, enabling you to complete tasks more efficiently.

The DCPJ125 complies with strict ENERGY STAR standard, ensuring low energy consumption, low noise levels and a recycle-friendly design.

All Brother inkjet Multi-Function Centres use an individual ink cartridge system.

This means you only have to replace the colour that runs out instead of having to discard an entire tri-colour cartridge - reducing waste, protecting the environment and saving you money.

Return your empty ink cartridges to Brother for recycling and you will be helping to protect the environment. For more information go to www.brotherearth.com

To achieve the highest print quality, we recommend using original Brother LC39 ink cartridges together with Brother BP71 Premium Plus photo paper.

DCPJ125 Technical Specifications
