Produce a wide range of high-quality single and double-sided documents up to A3 size

Multi-page runs are easy with the MP 2000's standard double-sided printing and optional ARDF

Easy desktop access to network printing, scanning and faxing

Enhanced multifunctionality in a cost-effective, space-saving design

The MP 1600 and MP 2000 are single A3 devices that can answer the print, copy, scan and fax requirements of today's demanding workgroups. The MP 1600 and MP 2000 combine a wide range of productivity boosting multifunctional features into a cost-effective, all-in-one design. These compact devices allow you to quickly process and manipulate documents, with the capability to share and distribute them digitally. Users benefit from versatile 'Scan-to' features and advanced fax functions including Fax Forward that enables inbound faxes to be sent direct to an email address or folder.

Instant, secure access for busy workgroups

Your workgroups will save time and enjoy easy document management with the MP 1600 or MP 2000, which provide instant desktop access to versatile network printing and scanning. To safeguard your sensitive data, the MP 1600 and MP 2000 are also equipped with security features including password protected Windows Authentication. The MP 1600 and MP 2000 support all major networks and industry standard printer languages via its Network Interface Card and USB 2.0 ensuring seamless integration into your document environment. Further connectivity options include Wireless LAN, IEEE1284 and Bluetooth for the latest mobile technologies.

Fast, high quality productivity

Get quick, consistent quality output every time with the MP 1600 and MP 2000's true 600dpi print resolution and impressive speeds of 16 or 20 prints per minute. Coupled with ultra-fast warm-up times, they deliver truly outstanding performance. Multi-page documents can be handled without interruption with the optional paper trays and Automatic Document Feeder (ADF) installed. All-round productivity is further enhanced with the MP 2000's standard paper saving double-sided output and optional Automatic Reverse Document Feeder (ARDF).

Easy to monitor and manage

SmartDeviceMonitor is an easy to install and use management application that puts both users and Network Administrators in full control of document communication over the network and provides them with instant feedback on the status and usage of their networked document solutions.

In Harmony with the Environment

Our products are designed to be kinder to the environment. We are committed to developing technologies that conserve energy and help prevent global warming. Our aim is to reduce the impact on the global environment, whilst continuing to enhance user comfort levels. The MP 1600 and MP 2000 help users to save energy by performing a much wider range of tasks using a single multifunctional device.

Outstanding Software and Services

Improving productivity, workflow efficiency and cost control is easy with Gestetner. Designed to add value and ensure our devices operate seamlessly and reliably, we cover every aspect of your business from document management, network control and consultancy, to training and unrivalled support. For connected devices the intelligent way of working is @Remote. This embedded technology uses the Internet to automate administration of the MP 1600 and MP 2000, sending meter readings, service call and consumable notifications directly to Gestetner via a secure connection.
