IMPROVING ON PERFECTION IS EASIER THAN IT SOUNDS.

The new and improved Xerox® DocuMate® 152i may look like its award-winning predecessor, but this small scanner has been overhauled with new features. A complete small-office document management solution, the DocuMate 152i is 40% faster and includes robust PC and Mac TWAIN drivers and software.

The Xerox® DocuMate® 152i, color sheetfed document scanner, now scans up to 50 images per minute (ipm) in duplex mode, includes a 50-page automatic document feeder and has the ability to automatically scan documents into searchable PDF files. The scanner also offers a more powerful suite of bundled software designed to help you organize and find the information important to you.

DESIGNED TO DO MORE

It's easy to say that "you want to do more with the paper on your desk." The hard part is finding the right tool to help you achieve that goal.

Well-known for quick and easy scanning setup and operation, the Xerox® DocuMate® 152i is designed for small businesses, home offices and students who are looking for an easy-to-use scanner that includes all the tools needed to declutter their paper filled lives.

Powered by Visioneer OneTouch® technology, the scanner allows users to scan to the "destination" of their choice by pressing a single button, eliminating multiple steps usually required to save scanned documents in popular file formats. Visioneer OneTouch allows you to scan documents to your choice of 9 preset yet completely user configurable destinations. This enables your documents to be scanned with the correct settings for resolution, color, cropping, file format and then delivered to virtually any application, folder or device – all at the touch of a button.

The DocuMate 152i produces clear and sharp scans of any document, in color or black and white. Worried that your highlighted notes from the meeting won't scan clearly? What about the

receipt that was folded in your pocket? Real world documents are never a problem for the DocuMate 152i. Visioneer Acuity technology enables the scanner to instantly improve the visual clarity of every scanned image. You get perfect scans from imperfect originals.

PLATFORM FLEXIBILITY

For Mac® users, the Xerox® DocuMate® 152i includes a fully featured TWAIN driver, ICA support, and a simple yet powerful Scan Utility, allowing you to get started right out the box.

Xerox® DocuMate® 152i Scanner Software Solutions

VISIONEER® ONETOUCH®

Visioneer OneTouch® is an easy-to-use utility that connects the DocuMate 152i scanner with a powerful set of scanner settings to greatly improve the efficiency of your workflow—so that with one touch, the document is scanned automatically to email, Microsoft® Word, your printer, or simply a file folder. In addition to scanning directly to all popular destinations, Visioneer OneTouch also links the DocuMate 152i with industry-leading document management software, such as Xerox® DocuShare® or Microsoft SharePoint®—forming an easy-to-use workflow from paper to a selected destination. A Software Development Kit (SDK) is also available which provides the ability to develop specific links and integrate them into the Visioneer OneTouch control panel quickly and easily.

VISIONEER ACUITY

Visioneer Acuity enables your scanner to instantly improve the visual clarity of every document that you scan. Using advanced algorithms and dynamic thresholding Acuity will intelligently correct documents containing imperfections, improve quality of scanned images for archiving, increase OCR accuracy, and save time.

VISIONEER TWAIN DRIVERPLUS

DriverPLUS offers an impressive array of settings to enable precise customization of the scan—far beyond current TWAIN specifications and user experience. DriverPLUS also delivers Parallel Scanning, allowing multiple same-model scanners

to be connected to a single PC and run concurrent jobs. Visioneer Acuity integration adds intelligent image enhancement and PC Optimization to enable full-speed scanning.

OCR AND PDF SOFTWARE

This leading, easy-to-use OCR application reduces the need of retyping and paper storage, precisely preserving the original document's layout and formatting while converting your scans into various file formats, including searchable PDF. PDF features allow you to create, convert, edit, and securely share PDF files. The resulting text can then be used in virtually any word processing, desktop publishing or web publishing program.

DOCUMENT ORGANIZATION

To simply managing your scans, a document organizer combines the efficiency of document management, the convenience of high quality scanned documents and the power of creating PDF files, adding a new level of productivity in managing documents.

MAC® TWAIN

The Mac TWAIN driver offers all of the features of Acuity Image cleanup built in. No 3rd party software needed. Blank Page Removal, Auto Color Detect, Auto Rotate are just a few of the standard features. It also includes a digital endorser to add text to your images, the ability to read barcode data (3rd party software required to interpret barcode data), and Merge two sides.

VISIONEER SCAN UTILITY FOR MAC

If there is no scanning application on your Mac, a simple but effective scan utility is included, allowing you to take full advantage of all of the drivers' features. Simply put, set your driver preferences, select an image format (BMP, JPG, GIF, PDF, MPDF, TIF and MTIF), choose where you want to save your images to, and start scanning.
